

Privacy Statement FUTURE CITY FOUNDATION

This site as well as the personal details of interested parties in the database are managed and maintained for **SCOREwater** by the Future City Foundation in the Netherlands. Below is a privacy statement from Future City that applies to this website.

Privacy Statement FUTURE CITY FOUNDATION

Future City processes personal data of interested parties around SCOREwater with great care and strictly confidential, in line with the General Data Protection Regulation (GDPR).

COLLECTION, PROCESSING AND USE OF PERSONAL DATA

Personal data is only processed to inform interested parties by digital newsletters, invitations and emails about SCOREwater and its activities. Data that is processed is at least name and address data and, if necessary, and other data (such as names of social media accounts).

The Future City Foundation can use personal data at its disposal from the database by mail, messages or contacting people to inform them about SCOREwater, for which interested parties have given permission. In addition, data can be shared with SCOREwater's partners. People can always unsubscribe (“unsubscribe”) from receiving messages / newsletters or indicate that they do not want to maintain contact.

STORAGE TERM OF PERSONAL DATA

The Future City Foundation handles data with care and keeps it safe and secure until a request is made to delete the data or the SCOREwater project has been completed, so that the project is closed in consultation with the partners and all data from the file be deleted.

In order to be able to check whether a person has not already submitted a request for removal at an earlier time, the e-mail address will be saved in a separate file when requested to be deleted. On special occasions it is checked whether the data subject is not included in a processing unintentionally. That file is only consulted for that purpose.

Privacy Statement FUTURE CITY FOUNDATION

SECURITY OF PERSONAL DATA

Employees of the Future City Foundation take optimal care of the data under their management and have confidentiality of confidential information entrusted by the client or interested party.

Future City uses technical and organizational security measures to protect the data that it processes as well as possible against data breaches (breaches). Our security measures are continuously improved in accordance with technological (ICT) developments.

When a data leak (violation) is detected, the affected persons will be informed and a report will be made to the appropriate authorities.

RIGHT TO SEE

Persons whose data are being processed are entitled to inspect the data that we process from them. This request can be sent by e-mail to info@scorewater.eu, with SCOREwater, surname and E-mail address.

RIGHT OF ADJUSTMENT OR REMOVAL

If the details of a person are incorrect or changed, the Future City Foundation will have them corrected on request. If a person indicates that they want to be deleted, Future City will do this from all files. The person concerned will be informed of this. Request for deletion can be sent by e-mail to info@scorewater.eu, with SCOREwater, surname and E-mail address.

WITHDRAWAL OF PERMISSION, RIGHT OF OBJECTION, RESTRICTION AND TRANSFER

Persons can object to the processing of his / her data. Persons have the right to limit the processing and transfer of his / her data stored by us to an affiliated party or processor.

COOKIES

This website only uses functional cookies and preferred cookies. These cookies ensure that the website functions properly and that the website remembers information that influences the behavior and design of the website. This data is anonymous and not tied to personal data. This data is only used to improve the website.
